MOUNTING INSTRUCTIONS

For **LARGE WALL PLATE** cod. EB F01

To be used for Entry Box **SPACE** and **TOWER** only

It allows the mounting onto a brick wall

1. Place the plate on the wall in the desired location, verifying the levelling and check that the support surface is uniform.
2. Mark the 4 centres of the slots with a pencil and perform \varnothing 8 mm holes with a drill to insert the supplied dowels.
3. Fix the plate onto the wall using the 4 screws making sure it's levelled. Let the four small preassembled screws protruding outwards for the mailbox mounting unscrewing the 4 blind nuts.
4. Place the mailbox holding the lower flap open letting the 4 screws on the mounting plate through the back holes.
5. Manually screw on the 4 blind nuts onto the screws that are now inside the mailbox tightening them with the supplied spanner.
6. Close the flap. Well done, your mailbox is ready for use.
